

VIRTUE V45

WITNESS A NEW CHAPTER

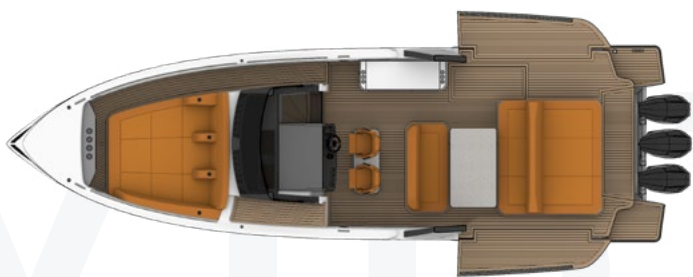

A NEW FLAGSHIP, WORLD PREMIERE: JANUARY 2027

THE NEW VIRTUE V45

THE VIRTUE PHILOSOPHY, REIMAGINED

The V45 takes Virtue into a new class: with more space, greater comfort and new possibilities within a distinctive 14-metre form. At its core remains the philosophy established by the V33: distinctive design, responsive performance and freedom of configuration.

V45: TOP VIEW:
FACE-TO-FACE DINING CONFIGURATION

V45: TOP VIEW
U-SHAPED AFT LOUNGE CONFIGURATION

FROM CRUISING TO OPEN-AIR LIVING

Underway, the V45 retains a clean, confident profile. At anchor, the fold-down aft terraces open the deck to the water, creating a wider and more relaxed space for sunbathing, dining and time together.

One platform, designed to move effortlessly between performance and open-air living.

VIRV

PERFORMANCE SHAPED BY THE WATER

The V45's Petestep® hull is designed around the boat's proportions, weight and power. Patented deflectors redirect water downwards and towards the stern, using energy that would otherwise be lost through spray. The result is a smoother, more composed and efficient ride.

SMOOTHER THROUGH THE WATER

By softening the impact of the hull against the waves, Petestep® reduces peak vertical accelerations by an average of 30%, supporting greater comfort at speed.

COMPOSED AND RESPONSIVE

Greater stability in every direction allows the V45 to remain controlled and predictable as conditions change.

EFFICIENCY BUILT INTO THE HULL

Reduced wetted surface and less energy lost through spray help minimise resistance, supporting efficient performance without compromising comfort.

DESIGNED AROUND THE WAY YOU SPEND THE DAY

BOW SUNBED

Positioned at the bow, the sunbed creates a relaxed space for stretching out, enjoying the open view and slowing down at your own pace.

AFT SUNBED: CLOSER TO THE WATER.

The aft sunbed forms a generous relaxation zone beside the open terrace, designed for sunbathing, conversation and effortless access to the sea.

CENTRAL AREA: THE SOCIAL HEART OF THE DECK.

The central seating and dining area brings shade, comfort and functionality together — creating a natural place to gather throughout the day.

MAIN CABIN: COMFORT BEYOND THE DECK

A comfortable lounge with dining area and well-equipped galley come together in a calm, considered interior: created for unhurried mornings, shared meals and longer stays on the water.

A GENEROUS LOUNGE FOR TIME TOGETHER

The u-shaped sofa seating creates a comfortable and sociable setting for dining, conversation or simply stepping away from the pace of the day.

EVERYTHING NEEDED FOR RELAXED TIME ON BOARD

With an induction hob, sink, refrigerator, useful work surfaces and neatly arranged storage, the galley makes it easy to prepare light meals, drinks and refreshments during longer days on board.

COMFORT SHAPED BY INTELLIGENT USE OF SPACE

Every element has been positioned to support movement, storage and everyday use, allowing the cabin to feel open without sacrificing functionality.

MID CABIN: A RELAXED PLACE TO REST

The V45 mid cabin is designed to adapt to the way the boat is used. A generous double berth can be reconfigured as two separate beds, creating a flexible sleeping space for owners, couples or guests.

Integrated storage, layered lighting and a calm, understated interior give the cabin a private and welcoming character — designed for restful nights and longer stays on board.

ONE CABIN, TWO SLEEPING CONFIGURATIONS

The sleeping area can be arranged as a spacious double berth or divided into two individual beds, allowing the cabin to adapt easily to different guests and different journeys.

EVERYTHING IN ITS PLACE

Well-planned cabinets and open shelving provide easy access to everyday items while maintaining the cabin's relaxed, uncluttered feel.

A CALM SPACE TO RECHARGE

Soft materials, warm neutral tones and carefully integrated lighting create a quiet environment designed for rest after a full day on the water.

BATHROOM: EVERYDAY COMFORT, FULLY ON BOARD

Positioned directly beside the main living area, the V45 bathroom provides a complete and easily accessible space for everyday comfort on board.

A dedicated shower area, washbasin unit and cabinet create a comfortable bathroom suited to relaxed days and longer stays on the water.

SEPARATE SHOWER AND TOILET

With a separate shower and toilet, the space is easier to use and better suited to longer stays on the water.

EVERYTHING CLOSE AT HAND

A compact storage area and practical washbasin surface keep everyday essentials within easy reach.

A LOWER DECK DESIGNED TO FLOW

The V45 lower deck has been designed around the way experienced owners and guests actually use a boat. Social, practical and private spaces are arranged along a clear circulation route, allowing movement through the interior without disrupting moments of rest.

The result is a composed and intuitive layout that makes full use of the available volume — supporting relaxed days, private evenings and longer stays on the water.

A NATURAL FLOW THROUGH THE INTERIOR

A clearly defined passage connects the main living area, galley, bathroom and sleeping accommodation, making the lower deck easy and intuitive to navigate.

A NATURAL TRANSITION FROM LIVING TO REST

The main cabin brings together the shared onboard functions, while the mid cabin provides a calmer sleeping area further within the interior.

DIMENSIONS

Loa	Beam	Draught excl. engines:
13,2M	4,0M	0,8M

CAPACITY

Fuel tank	Fresh water	Black water
1200L	180L	110L

PROPULSION AND PERFORMANCE

Standard engines	2 X 350HP V10 MERCURY VERADO
Optional engines	• 2 X 425 HP V10 MERCURY VERADO • 3 X 425HP V10 MERCURY VERADO, • 2 X 600HP V12 MERCURY VERADO,
Range	TBC
Fuel Consumption	TBC
Maximum speed	53 KNOTS (3 X 500HP RACING V8 MERCURY VERADO)
Cruising speed	25-30 KNOTS

DESIGN AND ENGINEERING

Engineering and build	VIRTUE YACHTS
Design	GUIDO DE GROOT
Naval architecture	STUDIO DELTA /PETESTEP
Category	B
Maximum passengers	12
Maximum load	12 400 KGS
Weight (half load)	10 300 KGS

FEATURES

The V45 HT comes standard with the following features and highlights.

EXTERIOR

Sunbeds	The Virute V45 is equipped with bow and aft sunbeds which allows you to enjoy a perfect day at the sea.
Helmstation	The Virtue V45 has a ergonomically designed helm console with everything you need intergrated.
Suspension skipper seat	The Virtue V45 is equipped with double suspension seats at the helm making the ride extremely comfortable.
Terraces	The Virtue V45 offers an option of hydraulically operated side terraces which increases the beam of the boat over 35%. You can create your own private beach club.

Double bed	The front cabin is equipped with two cabins maximizing space for longer trips.
Wetbar / Galley	The V45 comes with one wetbar including a sink. As optional you can equip the wetbar with a fridge and icemaker. In the front cabin you can add a fridge to the galley.
Storage	In the front you have a big anchor locker with storage. In the aft you have a big storage compartment under the aft sunbed.
Bathroom	The bathroom comes equipped with a toilet, sink and separate shower compartment.

ALL EYES ON YOU

Set the trend. Be different. Virtue Yachts stands out in harbours and on the sea.

PREMIUM MATERIALS

Virtue Yachts uses premium materials from high end suppliers and following abyc and iso standards.

CLEAN LINES

With modern design, hide away anchor system and intergrated rails

ADDITIONAL OPTIONS

Some of the additional options that you can choose.

- Joystick system
- Mastervolt Lithium Battery Package
- Shore Power
- Garmin Chartplotters
- Garmin VHF and Radar

DETAILS AND FINISHING

- Custom Gelcoat Color
- Custom Upholstery Color (Exterior)
- T-Top in Black
- Shadowcaster deck and underwater lights

COMFORT

- SEAKEEPER
- Generator
- Air-Conditioning
- Fully automatic and hideaway anchor system
- Waterski Arch
- High-End Sound System By JL-Audio
- Toilet and Fresh Water System
